ABSTRACT: The issues of employee information management, the use of surveillance cameras to monitor employees, and

employer liability for their employee's sexual misconduct are discussed. With regard to employee information, it is...

... by taking certain practical steps, an employer may significantly reduce the likelihood of litigation and liability surrounding this issue.

May employers use surveillance cameras to monitor employees in the workplace?

Employers may use surveillance cameras to monitor the workplace in areas where employees have no reasonable expectation of privacy.

...ABSTRACT: is a compulsory federal program of old-age benefits, a federal-state program of unemployment insurance, and a program of grants-in-aid for old-age assistance, aid to dependent children...

...is the second largest expenditure of the federal government. To receive social security benefits, a worker must have an insured status. This is achieved by earning work credits in covered employment. The dollar amount of monthly income benefits is derived from the worker's primary insurance amount which is based on his average monthly wage. The Social Security System was founded...

...2. compulsory contribution, 3. current cost financing, 4. statutory right, 5. social adequacy, 6. social insurance, and 7. self-supporting. The Social Security System is an intergenerational income transfer program. The population trend poses great problems for the system because the number of people receiving benefits will grow over the coming decades and the number of workers financing the program will decrease.

Abstract: A new generation of technology is triggering an upsurge in the

electronic surveillance of workers in service industries.

Combinations of computer counters, weight sensors, tape recorders and cameras reminiscent of Big Brother spies in George Orwell's 1984 are ...

...ever-widening array of employees, including supermarket checkers, bank tellers and check processors, stock brokers, insurance claims approvers, tax collection agents, hospital workers and doctors, airline reservation clerks, pilots and engineers

ABSTRACT: The issues of employee information management, the use of surveillance
cameras to monitor employees, and
employer liability for their employee's sexual misconduct are
discussed. With regard to employee information, it is...
... by taking certain practical steps, an employer may significantly
reduce the likelihood of litigation and liability surrounding this issue.
May employers use surveillance cameras to monitor employees in the workplace?

... It all started in October when the Institute sent overnight warnings to the insurance industry of a fraudulent survey under way in New York, New Jersey and possibly other parts of the country. Persons identifying themselves with the Institute were making the survey by phone, apparently asking a series of questions that became increasingly personal such as salary information.
